Hospital and Home Care Recovery

Hospital and Home Care Recovery is designed to provide CSEA members under age 75 with extra money to help cover the cost of hospital stays and recovery afterwards. This valuable insurance pays a cash benefit in addition to any other health insurance you may have now. That extra money can be used towards medical and home care bills, or other expenses, such as groceries, utility bills, and daily living expenses.

For one rate, you'll be covered with:

Up to **\$1,000** per hospital stay.

Up to **\$4,000 each year** for home care recovery. Typically less expensive than nursing home stays, in-home care can bring more personalized service and help people recover more quickly.

At age 80 the annual home recovery benefit maximum reduces to \$2,000 a year. Premiums will not reduce.

Acceptance is guaranteed for eligible members.

Both you and your spouse may be eligible for this valuable protection. There's no medical exam or health questions, only one short application form to fill out.
